## LOWER ENERGY COSTS ACT

## GENERAL LEAVE

Mr. WESTERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on H.R. 1.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arkansas?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 260 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 1.

The Chair appoints the gentleman from California (Mr. ISSA) to preside over the Committee of the Whole.

□ 1412

## IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 1) to lower energy costs by increasing American energy production, exports, infrastructure, and critical minerals processing, by promoting transparency, accountability, permitting, and production of American resources, and by improving water quality certification and energy projects, and for other purposes, with Mr. ISSA in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

General debate shall not exceed 7 hours, with 6 hours equally divided among and controlled by the respective chairs and ranking minority members of the Committees of Energy and Commerce and Natural Resources or their respective designees and 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees.

The gentlewoman from Washington (Mrs. RODGERS) and the gentleman from Arkansas (Mr. WESTERMAN), the gentleman from New Jersey (Mr. PAL-LONE) and the gentleman from Arizona (Mr. GRIJALVA) each will control 90 minutes. The gentleman from Missouri (Mr. GRAVES) and the gentleman from Washington (Mr. LARSEN) each will control 30 minutes.

The Chair recognizes the gentleman from Arkansas, (Mr. WESTERMAN.)

Mr. WESTERMAN. Mr. Chair, I yield myself such time as I may consume.

Mr. Chair, I rise today in support of H.R. 1, the Lower Energy Costs Act.

As an engineer, I have learned that no issue is too difficult for American innovation and ingenuity to solve when we honestly identify the problem, develop a sound plan to solve it, and do the hard work to get the results we desire.

The truth we all know is America has an energy crisis. Energy is foundational to everything we do, and for the sake of our future, we must solve this problem.

Energy prices, in general, have gone up nearly 40 percent in a little over 2 years. High energy costs translate throughout the economy, causing inflated prices for every necessity of life, from the food we eat to the clothes we wear to the roof over our heads.

President Biden has said he is working to lower these costs. But his actions are drowning out his words. He has waged war on American producers, shutting down oil and gas leasing, banning mining development in certain areas, and insisting on keeping our Federal regulations permanently stuck in the past.

□ 1415

What are we getting in return?

We are getting more dependence on the worst polluters in the world while we wreck our own economy sending our wealth and jobs overseas.

Our current energy policies favor Putin, the Chinese Communist Party, and despots around the globe over the American people and freedom. Why would our friends across the aisle continue to put the worst polluters, human rights violators, and those who wish us harm above the American people?

No more. H.R. 1 is designed to solve our energy crisis. House Republicans are ready to show the world that American energy—not Saudi Arabian, not Venezuelan, not Chinese, or Russian energy—American energy is our future. American mining, American innovation, American processing and refining,
